

Library and Information Science  
Comprehensive Exam Essay Questions – Fall 2022

**Question 1**

Libraries, archives, and museums must transform their organizations to stay relevant to their communities, organizations, or society, and transformation requires innovative leadership. In an information setting of your choice, describe the characteristics of transformative leadership and discuss how professionals can help transform their organizations.

**Question 2**

Mis/disinformation is the widespread problem of the society and has the impact on the field of librarianship. In an information setting of your choice (e.g., public library, academic library, school library, archive, museum, etc.), discuss the roles and responsibilities of information professionals in addressing mis/disinformation issues. Explain the ways you as an information professional would design information services or programs to improve users' knowledge, skills or dispositions in discerning mis/disinformation.
